

Are you a health care professional? Are you great at spreadsheets and documents? Can you calm a frightened child...or grandmother? Will you donate some time to the H1N1 Vaccine Campaign...at schools, at the hospitals, at the LaPorte County Health Department? We need nurses, physicians, clerical and telephone assistance, and people who can help with county-wide communications.

For more information about volunteering to help with the H1N1 Influenza Vaccine Campaign, visit the LaPorte County Health Department's website at www.laportecounty.org ...click on "current local flu information." Email your questions to H1N1@laportecounty.org or call the Health Department at 219/326-6808 X2200.
